

Return Rollers

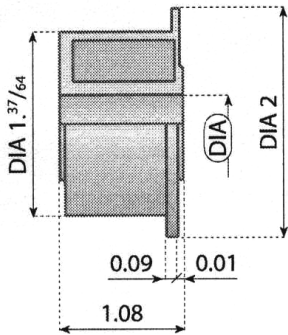

Description

Part Number

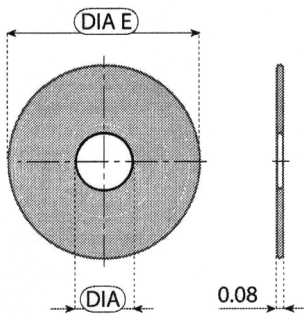

Low Noise Roller in High Density Polyethylene.
Includes 1 piece Thermal Plastic Rubber.
DIA. = 3/4"
DIA E = 2.52"

12836R

Self Lubricating High Density Polyethylene
Return Roller.
DIA. = 5/8"

12827N

Guide Flange – Polypropylene Material.
Very Low Friction Coefficient.
No Liquid Absorption.
Excellent Wear and Chemical Resistance.

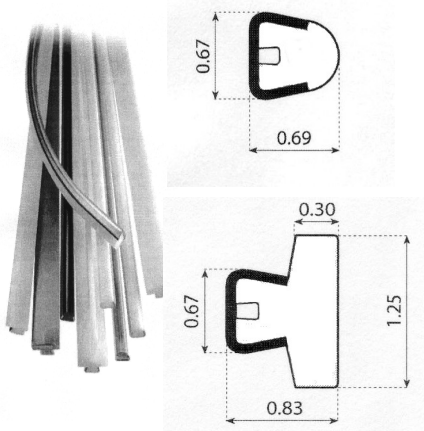

12534

DIA E = 2.75"
DIA = 3/4"

Conical Side Guides

Description

Part Number

Extruded Ultra High Molecular Weight Polyethylene.
Stainless Steel Backing.
Supplied in 10ft lengths.
